education notes that although progress has been made in increasing enrollment and computer use in most African countries, millions of children, especially girls, have never enrolled in school and many have dropped out of school.

Furthermore, the multifaceted impact of COVID-19, climate change and armed conflict, which has exacerbated existing multidimensional poverty and increased the number of out-of-school children in the region of Nigeria, have placed a significant number of children at risk of dropping out of school.

Therefore, the importance of investing in human capital development as a prerequisite for economic growth is emphasized. More investment is needed to maximize the benefits of education, leading to better health outcomes and higher productivity, which contributes to sustainable economic growth.

Investing in Human Capital Development (2022) and the National Education Policy (2020) are key strategy documents that

20. Finally, Nigeria will continue to work with all stakeholders and partners to promote universal access to quality education and lifelong learning opportunities at all levels and for all people to empower all to contribute to sustainable development.

I thank you.
