Agreements and statutory instruments supporting the

world. Efforts must therefore be made to promote sustainable urbanization everywhere in the world.

- **the Elderly** - While there are challenges of ensuring that sufficient resources and an effective service system are put in place for the aged, people, we cannot turn our backs on the lives and

needs of the aging population.

- **Protection of the Family Unit** - the family is the natural and fundamental group unit of society. Strengthening families is key to the realization of national and internationally agreed development goals including the MDGs and SDGs.

- **International cooperation** - no country can single handedly meet the goals and objective of the ICPD Programme of Action. Many developing countries have not yet fully implemented the

priorities, religious and ethical values as well as cultural  
backgrounds of a country's people.
