| My delegation wishes to commend the International Law Commission and the |
|---|
| Special Rapporteur on their continuing contribution to the codification and progressive |
| development of international law specifically in relation to the topic, Succession of States In |

It is worth noting that Article 5 of the 1978 Vienna Convention on Succession of States in respect of Treaties had limited questions relating to the effects of a succession of States to matters provided for in that Convention, while Article 39 of the 1983 Vienna Convention on Succession of States in respect of State Property Archives and Debts expressly 1911 =

Alternatively, the prevention of the pollution of rivers and water reserves with harmful substances in cases of armed conflict may be highlighted as a 'preventative measure' under Principle 2 (Measures to enhance the protection of the environment), which ought to be undertaken throughout each temporal phase. To this end, my delegation wishes to indicate that while it was evident from the Commentary that an explanation and a scope was given for the word "remedial measures" no scope was given for "preventative measures". We the the street and a first annual fill the second participation of the second s included rather than a mere indication of the phases in which, such measures may be "States must take environmental considerations into account when assessing what is necessary and proportionate in the pursuit of legitimate military objectives. Respect for the environment is one of the elements that go to assessing whether an action is in conformity with the principles of necessity and proportionality".
