

19 November 2021

Excellency,

I have the honour to refer to General Assembly resolution 71/327, entitled, Nations in Global Economic Governance adopted on 11 September 2017, in which the General Assembly welcomed the practice of informal engagement between the United Nations and intergovernmental groupings, including the Group of 20, that make policy recommendations or take policy decisions with global implications through informal briefings organized at the initiative of the President of the General Assembly. The General Assembly also invited the President to continue this practice by inviting appropriate representatives to an interactive dialogue with the membership of the Assembly to ensure continuity in their engagement, to promote transparency and coherence as well as enhance mutual understanding and cooperation in matters of global economic governance.

For further information on the briefing, please contact Mr. Mohammed Amin Shaker; Senior Adviser on Sustainable Development in my office (mohammed.shaker@un.org), and Mr. Huanyu Liu, Chief of Unit, Financing for Sustainable Development Office, UNDESA (liuh@un.org).

Please accept, Excellency, the assurances of my highest consideration.

Abdulla SHAHID
