UN75: The Future We Want, The UN We Need

Amidst the COVID-19 pandemic, the UN's worldwide consultation reveals a strong call for action on inequalities and climate change, as well as more solidarity

united

immediate priority

greater international solidarity

increased support to those hardest hit

overwhelming concerns are the climate crisis and the destruction of our natural environment

global cooperation is vital

74% see the UN as "essential"

the UN to change and innovate

Background
