Vision of African learning informing African development

- AJOL is a Non Profit Organisation based in South Africa
- Providing a journal hosting platform based on Open Journal Systems (OJS) and other FOSS;
- Increasing the quality, visibility of and access to African-published, peer-reviewed scholarly journals to offset global inequities in research publishing

## An appeal to walk the talk...

- f. Sustainability: to be as efficient and impactful as possible, open science should build on long-term practices, services, infrastructures and funding models that ensure the equal participation of scientific producers from less privileged institutions and countries. Open science infrastructures should be organized and financed upon an essentially not-for-profit and long-term vision, which enhance open science practices and guarantee permanent and unrestricted access to all, to

Thank you for the inclusion and the focus
